

Part-Time Job Opportunity

Now Hiring: Assistant Instructors for after school robotics programs

Are you looking to get paid for doing something fun, all while beefing up your resume and gaining valuable experience? Do you love working with kids? Look no further than Wizbots – the coolest place in the Bay Area!

Wizbots needs assistants to help our instructors in our after school classes. Help kids as they work on fun, creative robotics projects, and help the instructors manage all the gear. Weekend hours can be added if you're available to help with birthday parties, and there is also the potential to transition into summer camp work.

Hours: part-time, 5-15 hours per week

Compensation: \$15-20/hour

Requirements:

- Experience working with kids
- A solid competence in math & science
- A creative mind and a love of play
- A track record of being trustworthy & responsible
- Own form of transportation
- Availability in the afternoons during school year

Interested? Email us at jobs@wizbots.com and tell us why you'd make a great Wizbots assistant!

About Wizbots:

Wizbots is the leading provider of Robotics & Coding programs for girls and boys (grades 3-8) in the Bay Area. We utilize LEGO® robotics and Java programming, but emphasize creativity and design. We teach design thinking, but involve lots of engineering. We are whacky and fanciful, but also techy and practical. We synthesize imagination and engineering in a fun, social, and technically sophisticated learning environment. All Wizbots programs are held in our mobile Robotics Labs in partnership with schools, currently between San Mateo and San Jose. To learn more, visit www.wizbots.com.
